PAPERS IN CONNECTION WITH THE BUBONIC PLAGUE.

WEEKLY REPORT OF PLAGUE IN THE MYSORE STATE, EXCLUDING THE CIVIL AND MILITARY STATION OF BANGALORE, FOR THE WEEK ENDING 19TH MAY 1899.

The number of indigenous cases in the Province decreased by 10, owing mainly to decrease of cases in the Kolar Gold Fields, while owing to the infection afresh of two villages and the reinfection of a village, in the Mysore taluk, the number of places in which indigenous cases occurred increased by 3.

	Total No. of cases.	Total No. of places.
For week ending 28th April 1899 ...	106	21
For week ending 5th May 1899 ...	97	25
For week ending 12th May 1899 ...	105	22
For week ending 19th May 1899 ...	95	25

Bangalore City.

II. The following are the figures in the City up to date :—

	Plague cases.	Plague deaths.	Total mortality.	Normal recorded mortality in the same period.
From 12th August 1898 to 21st April 1899 ...	3,335	2,656	7,365	972
For week ending 28th April 1899 ...	...	...	34	35
For week ending 5th May 1899 ...	...	...	40	30
For week ending 12th May 1899 ...	...	...	44	29
For week ending 19th May 1899 ...	...	...	39	29

There was no plague case in the City and the total mortality decreased by 5.

During the week under report, the number of arrivals was 1,856 as against 2,311, the number of departures being 1,105 as against 1,135 in the previous week. The total population of the City at the close of the week was 65,478 as against 64,728 at the end of the previous week, showing a net increase of 750.

III. The figures for the Health and Segregation Camps were as follows :—

	Remaining.	Admitted.	Discharged.	Developed plague.	Remaining.
Health Camps ...	622	45	8	...	659
Segregation Camps		2	...	...	2

IV. During the week under report, there were 75 first and 3 second inoculations, bringing the totals to 34,756 and 1,393 respectively. No inoculated person was attacked with plague during the week.

V. There were no patients in the Hospital.

VI. The number of houses disinfected was 160 as against 162 in the previous week, of these 92 were deserted ones, 30 were plague-infected and 38 locked-up ones opened under Government Notification No. 5235—Pg. 21-96, dated 15th October 1898.

VII. Permission was given during the week to occupy 69 houses as against 74 in the previous week. No charge was levied for disinfecting 22 houses, one was allowed to be disinfected by the owner himself and the charges realised from the remaining 46 amounted to Rs. 102.

VIII. The cost of earth and road works carried out in the Basavangudi and Malleswaram extensions was Rs. 3,008 as against Rs. 2,391, bringing the total amount spent up to date to Rs. 72,172.

IX. The number of infected houses and houses unfit for human habitation demolished during the week was 4, the total number of such houses demolished from the commencement being 527. The number of houses removed for opening out the City during the week was 12, the number so removed from the beginning being 593.

X. During the week two persons were put on trial for violating the Plague Regulations. One was convicted and sentenced to pay a fine of Rs. 25 in addition to simple imprisonment till the rising of the Court, and the other acquitted.

XI. 788 incoming passengers, or a daily average of 112 persons were disinfected with their effects at the City Railway Station.

Mysore State, outside Bangalore.

XII. The accompanying return shows the state of the epidemic in the Province. During the week under report, there was an increase in the number of cases in the Mysore and Kolar districts, excluding the Kolar Gold Fields, where there was considerable decrease. In the Mysore City the decrease was slight.

XIII. The district of Bangalore kept up to the last week's figure and all the 4 indigenous cases in the district were confined to the village of Singarajpur in the taluk of Channapatna. During the month of March 1899, 215 houses were disinfected and 482 houses limewashed in the taluks of Bangalore, Dodballapur, Anekal and Channapatna.

XIV. In the Kolar district excluding the Gold Fields, the number of indigenous cases increased from 14 to 16, 1 case occurring in the village of Huttur in the Kolar taluk, 2 cases in the Kolar town, 5 in the Bowringpet town and 8 in the Jodi village of Muthur in the Sidlaghatta taluk. No cases have occurred in the last named village since the 15th instant.

In the month of April 1899, 77 houses were disinfected and 227 limewashed in the Chikballapur taluk.

Kolar Gold Fields.

XV. In the Gold Fields the number indigenous cases decreased from 51 to 35 and it is satisfactory to note that since the week ending 28th April the decrease has been steady week after week. The following statement shows the number of cases and deaths in the several Mines for the past 4 weeks.

No.	Names of places.	During the week ending 28th April 1899.				During the week ending 5th May 1899.				During the week ending 12th May 1899.				During the week ending 19th May 1899.				Remarks.

	Total ..	1	..	62	41	2	1	57	40	2	..	51	38	..	2	35	31	

In the Champion Reefs and the Mysore Mines the number of cases was the same as in the previous week, *viz.*, 4 and 2 respectively, while in the village of Ooregum and Sorakepet there was no case, and in Upper Masikam, Tank Block, Ooregum Camp, and Nundidrug Camp, the number decreased from 10 to 3, 6 to 1, 9 to 6, and 6 to 3 respectively. But Steven's Camp and Lower Masikam were reinfected and Kamadarpalli newly infected. The plague seems to be gradually losing its hold in parts hitherto badly infected.

The special Plague Officer, Kolar Gold Fields, reports that improvements in Ooregum village proper and Steven's Camp have been almost completed, that conjested localities have been opened out, and that Marikuppam bazars have been completely demolished. The wave of the epidemic is reported to be now passing beyond the Gold Fields and the adjoining villages to the east. In the Gold Fields 89 houses were disinfected during the month of April. The following statement shows the number of coolies working and the number of huts demolished, erected, &c., in the mining properties during the week.

Statement of Coolies working in the several Mines with information about their accommodation for the week ending 18th May 1899.

Serial No.	Name of Mines.	Daily average No. of coolies working in ordinary times.	No. working during the week ending 12th May 1899.	No. working during the week ending 18th May 1899.	No. of huts demolished during the week as infected and insanitary.	No. of huts erected during the week.	No. of huts removed to new sites during the week.	No. of tenements disinfected during the week.	No. of huts erected since the beginning of the outbreak.	No. of huts demolished since the beginning of the outbreak.	No. of huts removed to new sites since the beginning of the outbreak.	No. of tenements made habitable since the beginning of the outbreak.	Remarks.

	Total ...	19,150	15,176	14,589	75	90	...	17	662	1,374	709	293	

There was a decrease of 587 in the total number of coolies at work, there being during the week 14,589 coolies as against 15,176. The Special Plague Officer attributes the decrease mainly to the coolies getting their pay during the week, to the demolition of Sorakaipet lines and the evacuation of Masikam and Surapalli.

XVI. The district of Tumkur continued to be free and satisfactory progress was made in the work of disinfection as shown below :—

Name of place.	No. of houses disinfected.
Tumkur town	929
Tumkur taluk	1,502
Kottagere town	98
Koratagere sub-taluk	21
Maddagiri taluk	25
	2,575

XVII. In the Mysore district, excluding the Mysore City, the number of indigenous cases increased from 13 to 22, Mysore taluk contributing 13 cases, Seringapatam town 5 cases, Balenhalli, a village in the same taluk, 3 cases and Belakavadi in the Malvalli taluk one case.

Mysore City.

XVIII. In the Mysore City the figures were as follows :—

	Plague cases.	Plague deaths.	Total mortality.	Normal recorded mortality during the same period.
For the week ending 28th April 1899 ...	24	19	63	31
For the week ending 5th May 1899 ...	17	16	57	29
For the week ending 12th May 1899 ...	23	18	55	28
For the week ending 19th May 1899 ...	18	16	53	28

There was decrease all round, that under attacks being 5, and 2 under each of the headings "deaths" and "total mortality."

XIX. The total number of arrivals during the week was 2,091 as against 2,130, that of departures 1,786 as against 1,536, the total population of the City at the close of the week being 65,543 as against 65,262, showing a net increase of 281.

XX. The figures for the Segregation Camp were as follows :—

	Remaining.	Admitted.	Discharged.	Died.	Remaining.
For the week	3	...	...	...	3
Since commencement	...	591	556	32	3

XXI. There were 5 first and no second inoculations during the week, bringing the totals from commencement to 29,892 and 94 respectively. There were among the inoculated persons two attacks and one death during the week, the total number of inoculated persons attacked from the commencement being 165, of whom 117 died, 47 recovered and 1 is under treatment.

XXII. The Hospital figures were as follows :—

	Remaining.	Admitted.	Discharged.	Died.	Remaining.
For the week ...	19	1	10	...	10
Since commencement		260	112	138	10

XXIII. 28 houses were disinfected during the week as against 25 in the previous week, the total number of houses disinfected being 2,540.

XXIV. 384 out-going passengers or a daily average of 54 persons with their effects were disinfected at the Mysore City Railway Station.

No. 10311, *dated* 26*th May* 1899.

Under Section I of Government Notification No. Pg. 1096, dated 2nd February 1899, the Plague Commissioner in Mysore is pleased to direct the introduction into the town of Seringapatam of a system of house to house inspection known as the Supervision system and to empower the Deputy Commissioner, Mysore district, to take such measures as he shall deem necessary for the due enforcement of the said system.

Extract from the Diary of the District Plague Officer, Bangalore, for the week ending 19th May 1899.

* * * *

It is not clear how Singarajpur became infected as it is reported that no people went from there to infected places, neither had strangers visited the village from other places. The village had been infected before and evacuated, and up to 6th April last there had been 5 attacks and deaths. The disease seems to have broken out again a month afterwards when the people re-occupied the village. Possibly some germs that had remained dormant broke out again. The village has again been evacuated and up to date there have been 11 attacks and deaths, including the former account. Dead rats are reported to have been found in the villages of Indlabele and Koppa in the Anekal taluk, and consequently the villagers have camped out, and up to date there have been no cases of sickness amongst them.

It is also reported on 16th May 1899 that dead rats were found in some of the houses of Rachamanhalli in the Anekal taluk, added to which 2 deaths occurred in a house within a week. This being suspicious the village has been evacuated.

* * * * *

Extract from the Diary of the Chief Plague Officer, Mysore, dated 20th May 1899.

* * * * *

Ordered dismissal of one of the Supervisors (named Venkatachalaiya) of Chamrajmohalla for obvious neglect of duty and making a false statement that he had visited certain houses in his block this morning when there was proof to the contrary.

* * * * *

Extract from the Report on the annual general meeting of the South Mysore Planters' Association held on 30th April 1899.

* * * *

The Plague.—The terrible outbreak of this disease in several parts of the Province has been an appalling feature of the past year, and the efforts of Government to stamp it out have been watched by the Association with sympathy as well as anxiety. It is satisfactory to notice how suddenly it collapsed in Bangalore, and it is hoped there will soon be a subsidence in Mysore. We may congratulate ourselves that it has so far practically been shut out of Kadur and Hassan, and our thanks are due to the Deputy Commissioners of these districts and those working under them for their untiring efforts in establishing and working an effective organisation.

* * * *

Extract from the Diary of the District Plague Officer, Kolar, for the week ending 19th May 1899.

* * * * *

At Malur, where the work of disinfection is progressing satisfactorily. Almost all the houses have been disinfected and re-occupied, and the town has quite an animated appearance. What a contrast this is to what the place was about 3 months ago, when the only living thing was a stray donkey. In addition to disinfection and improved ventilation of houses, attention is being paid to the sanitation of the town. In all 20 conservancy lanes have been opened out; all excavations are being filled in and open spaces cleared of undergrowth and noxious vegetation.

* * * * *

Extract from the Diary of the Special Plague Officer, Kolar Gold Fields, dated 23rd May 1899.

* * * *

The next place visited this morning was Gollapally. This is a jodi village. This was evacuated in the beginning of April. One family has been stealthily sticking in the village. Two women of this family were this day found sick. They are typical but mild cases of plague. I had them put out at once. On my way home I found the Steven's Camp being cleaned up and chunam washed. * *

Extract from the Diary of the Special Plague Officer, Kolar Gold Fields, dated 27th May 1899.

* * * *

Gollapally was re-infected. A family of carpenters who were living in the fields stealthily came into the village during the inclement weather. Two women out of this family, the only members who had not been inoculated, were attacked.

* * * *

Extract from the Diary of the Special Plague Officer, Kolar Gold Fields, for the week ending 18th May 1899.

* * * *

The improvements to Ooregum village proper is almost complete. Congested localities have been opened out. 200 tenements have been demolished. Steven's Camp settlement has been similarly dealt with.

Marikuppam bazaars have been completely demolished. Champion Reef Mine lost 500 coolies this week. Pay day and the demolition of Sorakepet lines and the evacuation of Muskam and Surnpally contributed in a measure to this large desertion. This week there has been no robberies or molestation of the people in the huts of the several encampments.

The wave of the epidemic is now apparently passing beyond the Gold Fields and the adjoining villages to the east.

Inoculation operations are getting slack. People do not come forward quite so readily. There were 325 inoculations during the week.

Statement showing the number of Persons in the Health Camps, Bangalore City, for the week ending Friday, the 19th May 1899.
